Profile

Financial controller with a strong background in group reporting, budgeting and process improvement across retail and banking. I turn month-end numbers into decisions: clear dashboards, short closes and forecasts that the business trusts.

Work Experience

Senior Financial Controller, Acme Corp — *2021 – present*

- Built the group controlling function from scratch and defined the monthly reporting calendar for twelve entities.
- Cut the month-end close from ten working days to five by standardising reconciliations and automating the intercompany match.
- Partnered with sales and operations leaders on budgets, forecasts and pricing decisions, presenting the monthly results to the executive team.
- Designed the Power BI dashboards the board now reads every month, replacing forty pages of spreadsheets.
- Mentored two junior controllers and the finance trainees.

Financial Controller, Big Bank — *2018 – 2021*

- Owned the IFRS reporting for three Nordic subsidiaries and the yearly external audit, with no findings in three years.
- Introduced a rolling forecast that replaced the annual budget for the retail division.
- Led the finance workstream of a core-system migration for a team of five, delivered on time.
- Wrote the controls handbook for the division and trained forty colleagues on it.

Accountant, Example Retail — *2015 – 2018*

- Ran accounts payable and receivable for 40 stores.
- Built monthly store KPI reports for regional managers, used to set the store bonuses.
- Reduced overdue receivables by a third through a weekly follow-up routine.

Education

MSc in Business Economics and Auditing, Copenhagen Business School — *2015*

Thesis on revenue recognition under IFRS 15 (with distinction).

BSc in Business Administration, Aarhus University — *2013*

Accounting and finance.

Skills
